epresentative McMillin, of Tenne Causes a Hasty Adjournment of the House-President McKinley to Send a Special Message to Congress Recommend-ing a Commission to Adjust the Currency Question-Capital Notes.

Washington, July 7.-The tariff bill vas passed by the senate late Wednesday afternoon by a vote of 34 to 25.

Washington, July 7 .- The senate met Wednesday with a definite agreement made Tuesday night that the final vote on the tariff bill would be taken before the day's session closed. It appeared to have little effect in stimulating public interest as there was not that rush to the galleries marking the advent of an important event. The tariff bill was taken up and Allison proceeded to perfect its phrasology. The section placing a tax on tea which had been in-advertently passed over was, sruck out. Allison moved to strike from the free list "hile cuttings, raw, with or without hair, and all other glue stock." This caused some conflict, Jones of Arkansas opposing the change. Thereupon Alli-son withdrew the amendment, but Mason vigorously protested against the withdrawal. It was agreed to-30 to 17,

MESSAGE TO CONGRESS

It Will Recommend a Commission to Adjust the Currency Question.

Washington, July 7.-President Mc Kinley Tuesday night called a special meeting of the cabinet Wednesday. The regular meeting would not have occurred until Friday and there were some matters it was desired to give early consideration.

After a discussion lasting overanhou the cabinet decided that the president should send to congress a message recommending legislation providing for commending legislation providing for a commission to adjust the currency questions of the country. It was resolved that this message should be sent to congress Thursday, providing that the tariff bill is by that time passed by the senate. It is the expectation of the president that the subject will receive the attention of congress during the present extra session of congress. The message itself is written and is short. Its principal feature is a quotation from the president's inaugural address on the finan-cial subject. The tariff bill was not considered at the meeting except in its bearing on the currency commission proposition.

The president will ask authority to name nine commissioners and for an appropriation for the expenses of the commission, but will make no sugges tion as to the political or other composition of the commission, nor will he make any suggestion as to the lines of investigation. He will simply call attention to the necessity of a reform in our currency and national banking laws and state that in his opinion this reform is equally important with the enactment of a protective tariff law.

REED IS CAUGHT NAPPING.

Representative McMillin Causes a Hasty

Adjournment of the House.

Washington, June 7.—Representative McMillin of Tennessee caught Speaker Reed unawares Wednesday. Rising to a parliamentary inquiry he asked if it sion of the rules, Monday being suspension of therules, Monday being suspension day, and a recess being taken to Wednesday, the session of Wednesday therefore being a continuation of Monday's legislative day.

The speaker promptly replied that it

"Then I move, Mr. Speaker, that we suspend the rules and pass the Cuban independence resolution."

For a moment the speaker was non-plussed, but only for a moment, for while McMillin was speaking to his motion the speaker called out:

"The gentleman from Maine is recog-

nized.' This was the speaker's favorite cue to Dingley of Malne to move adjourn-ment, but the latter was taken completely by surprise and sat dazed in his seat while the house was convulsed by the ludicrous situation. After a little hesitation Dingley made the customary motion to adjourn, thereby cutting off the memorial services on the late Judge Holman, which had been set for the day. Roll call followed. McMillin's clever parliamentary stroke was loudly applauded by the Democrats.

It was clearly the original intention of the house leaders to keep that body in session Wednesday to await action on the tariff bill in the senate, but a motion to adjourn was the only escape for the speaker from a consideration of the Cuban resolutions so suddenly precipitated.

To Consider Hawaiian Treaty.

Washington, July 7.—Senator Davis, chairman of the committee on foreign relations, has called a meeting of the committee for Friday for the purpose of considering the Hawalian annexation treaty. It was at one time thought that the treaty would not be considered with a view to reporting it this session, but it is now the intention of the friends of annexation to report the treaty.

Senator Harris Is Better.

Washington, July 7.-There is some improvement in the condition of Senator Harris of Tennessee compared with his condition of Tuesday, and unless there is a decided relapse, it is the intention of his son to have him moved to a quiet place near Philadelphia, where it is believed he will be more comfortable than in torrid Washington.

Failure of a Texas Bank,

Washington, July 7 .- The comptroller of the currency has received information of the failure of the First National bank of Mason, Tex. Bank Ex-aminer Johnson was placed in charge. The bank has a capital of \$50,000 and at its last report its liabilities amounted to about \$30,000.

Senator Wellington, of Maryland, interests himself while the senate is in session in looking over newspaper clippings about himself. He subscribes to a news-clipping bureau, and reads everything that is said about him with

a great deal of interest. Lightning struck the home of Marshall Spring, at Hiram, Me., and set fire to six rooms, besides tearing up a board under Mr. Spring's chair and melting a bronze bracket near which one of his children stood. The whole

family escaped unhurt, however. One of the gifts at a recent silver wedding was twenty-five silver dollars of 1897. There was some difficulty found in making the collection of that number of dollars of this year. MINNESOTA TOWN WIPED OUT.

Cyclone Strikes Lowry and Kills Seven Persons-Many Injured.

Duluth, July 7.-Dispatches received here late last night at railroad offices say that a cyclone has obliterated the town of Lowry, Minn., and that seven people were killed and many injured. Lowry is situated on the "Soo" line, seven miles from Glenwood, on the Northern Pacific railroad. Particulars are meager, but it is learned that the cyclone traveled from southwest to northeast and that the little town of

Lowry was in the track of the cloud. The cyclone struck Lowry shortly after 6 o'clock in the evening. Evidences of the cyclonic cloud were seen in Duluth about 7 o'clock. The sky was overcast with clouds that circled as they moved rapidly northeast and there was a yellow cast that was ascribed to the sun penetrating through them. People looked in wonder on the scene, but nobody ascribed the condi-tions to a cyclone. The clouds moved high in the air and circled with a perfectly steady motion.
